UBA Activity Session 2026-2027.

1.Event: **Students Self dependent & Making Home Made Soap Workshop**

Held on date: 19/09/2026.

About Workshop: Rao Sohan Lal P.G. College, Neemrana organized a “Students’ Self-Dependence & Making Homemade Soap Workshop” with the objective of developing practical skills, creativity, self-confidence, and an entrepreneurial spirit among students. The workshop focused on encouraging students to become self-reliant by learning useful skills that can create opportunities for self-employment and small-scale entrepreneurship.

The programme was organized under the guidance and support of **Chairman Shri Neeraj Yadav** and **Principal Dr. Kaushal Yadav**, whose vision and encouragement continuously motivate students towards skill development, innovation, and holistic education. Their valuable guidance played an important role in making the programme successful.

The programme was graced by **Chief Guest Ms. Jasmin Husan**, who encouraged the students to develop practical skills along with their academic knowledge. Her valuable guidance motivated the students to think creatively and explore new opportunities for becoming financially independent and self-dependent.

Dr. Gurander Nath Bhardwaj, Coordinator, UBA, NIIT University, Alwar, participated as a **Resource Person** and provided valuable guidance during the workshop. He explained the importance of skill development, innovation, entrepreneurship, and community-oriented activities. He encouraged students to utilize locally available resources and transform their skills into sustainable livelihood opportunities.

The programme was coordinated by **Ms. Priyanka Yadav**, who efficiently managed the workshop activities and encouraged active participation of the students. Her coordination contributed significantly to the smooth and successful organization of the programme.

During the workshop, students were given practical knowledge about the **process of making homemade soap**. They learned about basic ingredients, preparation techniques, fragrance and colour selection, moulding, packaging, hygiene, and necessary safety precautions. Students actively participated in the practical demonstration and gained hands-on experience in preparing homemade soap.

The workshop helped students understand that self-dependence is not limited to academic qualifications. Practical knowledge and vocational skills can play an equally important role in building a successful career. Students learned that with creativity, dedication, proper quality control, attractive packaging, and effective marketing, homemade products can be developed into small business opportunities.

The programme also promoted important qualities such as **teamwork, leadership, creativity, confidence, problem-solving, and entrepreneurship**. Students were encouraged to identify their interests and develop skills

that can help them generate employment for themselves and, in the future, create employment opportunities for others.

The workshop was also aligned with the broader vision of **skill development, self-employment, entrepreneurship, and community development**. Such initiatives provide students with opportunities to connect classroom education with real-life applications and prepare them for the challenges of the modern world.

The enthusiastic participation of the students made the workshop successful and meaningful. The guidance provided by **Chief Guest Ms. Jasmin Husan Resource Person & Dr. Gurander Nath Bhardwaj, Coordinator, UBA, NIIT University, Alwar**, added significant value to the programme and inspired students to pursue skill-based learning.

In conclusion, the **Students' Self-Dependence & Making Homemade Soap Workshop at Rao Sohan Lal P.G. College, Neemrana** was a valuable educational and skill-development initiative. Under the guidance of **Chairman Shri Neeraj Yadav** and **Principal Dr. Kaushal Yadav**, and with the effective coordination of **Ms. Priyanka Yadav**, the programme successfully encouraged students to learn practical skills, develop entrepreneurial thinking, and move towards self-reliance. Such workshops should continue to be organized regularly to empower students with practical knowledge and inspire them to become confident, skilled, and self-dependent citizens.

Programme Participate Students =21

S.NO	STUDENT NAME	FATHER NAME	CLASS
1	EKTA	PARAMJEET YADAV	B.SC-I

2026.09.19 11:46

Held on date: 03/10/2026.

Rao Sohan Lal P.G. College, Neemrana organized a creative and skill-development activity for college students on “**Creating Durable Pots, Containers and Figurines Using Waste Paper and Multani Mitti.**” The main objective of the activity was to promote creativity, environmental awareness, waste management, and self-reliance among students through the effective reuse of waste materials.

The workshop introduced students to the concept of **best out of waste**, encouraging them to transform discarded paper into useful and decorative products. Students were taught how waste paper can be collected, processed, mixed with suitable materials, and shaped into durable pots, containers, and different types of decorative figurines. The addition of **Multani Mitti** helped students experiment with texture, strength, shape, and finishing.

During the practical session, students actively participated in preparing the material and creating different objects. They learned various techniques of shaping, moulding, drying, finishing, and decorating the products. The activity provided students with hands-on experience and encouraged them to use their imagination and artistic skills.

The workshop also highlighted the importance of **waste reduction and environmental protection**. Reusing waste paper helps reduce unnecessary waste and promotes responsible consumption. Students understood that materials which are normally thrown away can be converted into attractive and useful products with creativity and proper techniques.

The activity played an important role in developing **creativity, teamwork, patience, problem-solving skills, and entrepreneurial thinking** among the college students. They learned that handmade products can have both decorative and practical value and can potentially be developed into small-scale income-generating activities.

Such skill-based activities are particularly valuable for students because they connect academic learning with practical experience. The students gained confidence in creating products independently and explored the possibility of developing their skills into future **self-employment and entrepreneurship opportunities**.

The workshop also promoted the message of “**Reduce, Reuse and Recycle**” and encouraged students to adopt environmentally responsible habits in their daily lives. By utilizing waste paper and Multani Mitti, the activity demonstrated that sustainable practices can be combined with creativity and livelihood development.

The enthusiastic participation of the college students made the activity successful and meaningful. The workshop provided an excellent platform for students to learn a new skill, express their creativity, and understand the importance of converting waste into valuable products.

In conclusion, the “**Creating Durable Pots, Containers and Figurines Using Waste Paper and Multani Mitti**” activity at **Rao Sohan Lal P.G. College, Neemrana** was an innovative and environmentally friendly initiative. It successfully promoted **skill development, creativity, waste management, sustainability, self-reliance, and entrepreneurship** among college students. Such practical workshops should be organized regularly to empower students with useful skills and encourage them to contribute towards a cleaner and more sustainable society.

Event Chief guest : Dr. Gurendranath Bhardwaj (UBA Co-ordinator NIIT University Neemrana)

Participate: Dr. Kaushal Kumar (UBA Co-ordinator Rao Sohan Lal College Neemrana)

Director: Mr. Neeraj Singh Yadav (Rao Sohan Lal College Neemrana)

Participate Total no. of Students: 26
